A Package of Future-Enabling Biotechnologies Which Unite To Be Greater Than The Sum of Their Parts

1

THE iUESS

2

Liberation From aberration through collaboration in
Laberation

3

4

SabatomiRap

5

Vulpine Services

AN EVOLUTION REVOLUTION

Pre-seed Privately owned startup. Goodwill & Pro-bono to date: ~\$30K

Offers of investment pending: ~\$7.28M Addressable Market: \$200B Volunteers: >30*

Founded **2009**

HQ ① Cork, IE ② Coupar Angus, UK ③ Champaign, IL, USA

Commercial Products and Services

Products:

Liberation from aberration through collaboration in
Laberation

Geneticiser
(Kit)

SabatomiRap
(Kit)

Services:

Co-Dev

Support

Training

Curation

Our Platforms: ① THE iUESS ② Liberation from aberration through collaboration in
Laberation ③ Geneticiser ④ SabatomiRap ⑤ Vulpine Services

Near-term		Pricing	Status	Platform	Medium-term	Pricing	Status	Platform
INITIATOR SET mRNA ↔ protein conversion probabilities calculator	Free or Co-Dev	Alpha demo	①		Geneticiser Genetic and molecular scanning, manipulation and printing device	Free schematics or Kit for \$TBD	Early prototyping	③
					Transcription DNA ↔ mRNA conversion probabilities calculator			
PAMM protein fold prediction and active prion and amyloid mitigation	Free or Co-Dev	Designed, awaiting coder resources	①		Laberation module The integration of Laberation into our software suite	Free or Co-Dev	Designed, awaiting coder resources	①
					Laberation website The simplest portion of the peer to peer science sharing and sales platform			
Co-Dev Co-development package	From ~\$430 per month [#]	Preparing revised design	⑤		SabatomiRap Combined metal 3D printer and SEM for a fraction of the cost of either	From \$18,000/Kit [#]	Preparing revised design	④
					Support contract			

Annual Reports forms CDBCAF are filed with Illinois. Appropriate tax returns are filed in the UK and Ireland by our accountants there.

*Sweat equity input from these volunteers has been considerable. There are also additional members of our online rooms who contribute only rarely. Staff requirements when fully funded are expected to exceed 120 based on a target of \$40M. Regulatory requirements are as applicable to the dissemination of tools for lab use for further development.

[#]Prices are approximate and based on 2021 inflation rates.
